OS Plus Series

Innovative quality grade of original OS series. Recently developed universal adhesion foil for various kinds of substrates including printed papers, unprinted papers, a variety of OPP laminated papers with good workability

Characteristics

- Excellent adhesion properties on printed, non-printed and varnished papers
- Easy Make Ready
- Excellent workability on various stamping machines
- Suitable for both fine line and large detail
- High heat resistance
- High gloss level
- Suitable for all types of stamping machines

Application

Folding cartons, cosmetic packaging, liquor and confectionery industry, cigarette packaging, film packs, greeting cards, labels and general graphic applications

Stamping Temperature

- Vertical: 90-120°C (194-248°F)
- Cylinder: 130-160°C (266-320°F)

Storage Shelf Life

12 month under normal condition (10 -35 C, Below 60% RH)
