Building SMART partnerships

Working hard to build true partnerships is based on **SMART** foundations at API. Understanding not just foils, but the substrates and techniques that go with them, our experts are on hand to provide application advice throughout the entire process.

S ubstrate	What type of substrate will be foiled?
M achine	What type of foiling machine will be used?
A pplication	What is the application / end product?
R ecommendation	Hot, cold or pigment foil recommendation
T echnical support	Reassuring after sales service and ongoing technical support

To discuss a specific project, simply e-mail us at: enquiries@apifoils.com
